EDUCATION

Xavier Institute of Management, Bhubaneswar (XIMB)

MBA in Business Management

2026 – 2028

Bhubaneswar, India

Pandit Deendayal Energy University

B.Tech. in Computer Engineering — CGPA: 8.41/10.0

2022 – 2026

Gandhinagar, India

Higher Secondary Education (12th Grade)

Percentage: 83.54%

2021 – 2022

Ahmedabad, India

Secondary Education (10th Grade)

Percentage: 88%

2019 – 2020

Ahmedabad, India

Technical Skills

Programming Languages: Python, JavaScript, Java

Data Analytics: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Data Visualization, EDA

Web Development: React.js, Vue.js, Node.js, Express.js, Redux, Socket.IO, REST APIs

Cloud & DevOps: Kubernetes, Cilium, Hubble Relay, eBPF, Docker, gRPC, WebSockets

Databases: MongoDB, PostgreSQL, SQL

Tools & Platforms: Git, Prisma ORM, JWT Authentication, Tailwind CSS, Vite

Internship Experience

Tata Consultancy Services Ltd.

Feb 2026 – Jun 2026

Software Engineering Intern

India

- Developed a Kubernetes Policy Management and Network Observability Platform using Cilium, Hubble Relay, eBPF, React Flow, Node.js, and WebSocket technologies.
- Built an interactive network topology visualization dashboard enabling real-time monitoring of pod-to-pod communication within Kubernetes clusters.
- Implemented backend services for telemetry collection, event processing, and policy management using Node.js and Express.js.
- Integrated Cilium network policies with visualization workflows to simplify Kubernetes security and networking operations.
- Worked with Kubernetes-native networking concepts including eBPF-based observability and gRPC communication pipelines.

Nivikar Consultancy Services Ltd.

Jun 2025 – Jul 2025

Full Stack Development Intern (Remote)

Remote

- Designed and developed a complete business website using React.js, Node.js, Express.js, and MongoDB.
- Created responsive user interfaces optimized for desktop and mobile devices.
- Implemented RESTful APIs, database integration, and business workflow automation features.
- Collaborated with stakeholders to convert business requirements into scalable web-based solutions.
- Enhanced website performance, usability, and overall user experience through modern frontend development practices.

PROJECTS

Indian Sign Language Translator – Real-Time Gesture Recognition | Python, TensorFlow, OpenCV, MediaPipe **2023**

- Built a real-time gesture interpretation system using MediaPipe's landmark detection framework with precise 21-point hand tracking.
- Developed and tuned a TensorFlow-based classifier capable of identifying several ISL gestures such as 'hello', 'food', 'walk', 'you', and 'water'.
- Constructed a full machine learning pipeline covering preprocessing, feature generation, model training, and live webcam-based inference.
- Enhanced prediction accuracy through frame normalization, landmark visualization, and optimized video-stream handling.

Kanban Task Management System – Full-Stack Event Dashboard | React, Redux, Node.js, PostgreSQL, Socket.IO2024

- Designed a collaborative Kanban interface supporting drag-and-drop flows, multilevel tasks, priority markers, and due-date monitoring.
- Utilized Redux for predictable state handling and added local persistence for offline task continuity.
- Authored secure REST APIs using Express and PostgreSQL through Prisma ORM, enabling efficient data operations and role-based access.
- Incorporated Socket.IO to deliver real-time synchronization for shared boards and team activities.

Product Sales Analysis – Data Insights & Visual Analytics | Python, Pandas, NumPy, Matplotlib, Seaborn 2025

- Processed raw sales datasets by cleaning, restructuring, and extracting relevant indicators to prepare analysis-ready data.
- Produced analytical scripts using Pandas and NumPy to derive revenue patterns, product performance metrics, and purchasing trends.
- Crafted visual reports using Matplotlib and Seaborn to illustrate temporal spikes, correlations, and category-level insights.
- Automated recurring data evaluations and summary generation to streamline business intelligence operations.

Social Work & Volunteering

Indian Red Cross Society — Ahmedabad District Branch

2023

Volunteer, Blood Donation Camp

Ahmedabad, India

- Volunteered in organizing and managing large-scale blood donation camps, supporting donor registration, coordination, and on-ground operations.
- Assisted medical teams by streamlining donor flow, ensuring adherence to safety protocols, and maintaining accurate participation records.
- Demonstrated teamwork, accountability, and community leadership while contributing to public health and humanitarian initiatives.

Certifications

- **Microsoft Power BI Zero to Hero**
- **Programming with Python 3.X**
- **Cyber Security Fundamentals**
- **Understanding Incubation and Entrepreneurship**
